

Privacy policy - Registration for the mDOC interoperability tests - Geneva 2026

As part of the 15th International Interoperability Test Event, dedicated to testing implementations of ISO/IEC 18013-5, 18013-7 and 23220-4, held from 30 to 31 August 2026 in Geneva, Switzerland, personal data concerning you is collected and processed by the Agence Nationale des Titres Sécurisés (ANTS, France Titres), acting as data controller.

This data is collected when you register on the website dedicated to the event.

Purpose of the processing

The personal data collected is processed solely for the following purposes:

- to manage participant registration for the interoperability tests;
- to verify the identity of registered participants;
- to organize and secure access to the event;
- to enable the execution of technical interoperability tests between different mdoc implementations in accordance with ISO/IEC 18013-5 and ISO/IEC 18013-7 standards.

Interoperability tests are, by default, carried out using aggregated or fictitious data.

Should participants use personal data during testing, ANTS will not retain any such data after the end of the experimentation.

Legal basis

In accordance with Article 6(1)(a) of Regulation (EU) 2016/679 (GDPR), the processing is based on your consent, provided at the time of registration.

Data processed

The data collected is strictly limited to what is necessary for registration and identification of participants, namely:

- first name;
- last name;
- email address;
- password (stored in a secure form);
- registration-related data (date and time of registration, technical logs).

Recipients of the data

The data is accessible only to authorized personnel of ANTS, strictly for the purposes of organizing and managing the event.

No data is transmitted to third parties.

Retention period

Personal data is retained only for the time strictly necessary to organize and conduct the tests. All personal data is deleted at the end of the experimentation.

No personal data is retained beyond this period.

Data security

ANTS implements appropriate technical and organizational measures to ensure the security and confidentiality of personal data.
